

The Luncheon Club Proudly Presents . . .

PROFESSOR RICHARD ROSE!

Wednesday, February 25, 2015 at 11:45 a.m. in the Presidents' Room at the University Club

What Research with Twins **niwT**, Tells us about Ourselves

Dick Rose describes himself as in “nominal retirement” from the IU Department of Psychology and Brain Science. But he continues his work in psychology where he concentrates on the curious patterns of similarity, other than the physical, obviously, which arise in twins.

When he isn't pursuing his NIH-funded research on that subject, he can be found serving on the Boards of the Interfaith Winter Shelter and the Shalom Community Center, or in the choir stalls of the First United Methodist Church.
