Stepping Up, Sitting In and Standing Alone:
The African American Experience at Indiana University

In honor of I.U.’s bicentennial, writer, storyteller and Professor Emeritus, Indiana University Dr. Gladys DeVane, examines the African American experience at Indiana University...from then to now.

In her multimedia presentation, Dr. DeVane celebrates the stories of success and those courageous individuals who left an indelible mark on the university and the community at large. She also reflects on the sacrifices endured and the adversity overcome to obtain that success. Always educational, and at times controversial, Dr. DeVane embraces an unexpected voice that you won’t want to miss.
